1:5 SSD Duplicator

DEY-YG1060

- 1 to 5 SSD fast duplication/wiping
- Expandable to 1:59 duplication
- Works for HDDs as well

DEY-YG1060 is a fast and reliable solution for large volume data copying. It can perform 1:5 disk duplication on one unit and is expandable to up to 1:59 duplication by linking 10 units.

Special Features

- Fastest duplication speed available in the industry (up to 36GB/min, speed varies according to performance of connected device)
- Stand-alone or PC-controlled operation (PC host software included free of charge)
- Copy only used disk areas to drastically reduce copy time for any operating system or file system
- Copy drives sector-by-sector to produce identical target drives
- CRC compare: verify data of every copied sector and ensure a 0% error rate
- Complete HPA control: add/remove HPA on HDDs
- Cross-interface copy: copy between interfaces (ATA-SATA)
- Automatic QC testing during all operations to ensure quality of produced HDDs
- Various erasure methods to meet different needs
- Adjustable parameters: customize all operations according to specific needs
- Automation: create/combine any operations to be run automatically at the push of a button
- Execution logs can be immediately saved to the USB memory that is connected to the main unit.
- Network up to 10 units to make a single 1-to-59 duplicator. No speed reduction when linked!

Common Use

- Consumer Electronics Production
- PC and Hard Drive Manufacturing
- Digital Cinema Distribution
- System Production and/or Maintenance

Data Erasure Options

- Low Level Format
- DoD Erase
- NSA Erase

(Additional erasure methods can be created)

DEY-YG1060 is the world's fastest SSD duplicator and wiper. As a 6 port solution, it is capable of processing SSDs at up to 36GB/min, and can be expanded to 1:59 duplication by connecting 10 units.

Specifications

Item	Specification
Product Name	SSD 1:5 Duplicator
Model	DEY-YG1060
Interface	SATA 3.0
Main Functions	Copy, Wipe, Test
Ports	6 (1:5 duplication on one unit, 1:59 duplication by linking 10 units)
Host Interface	LAN(1000BASE-T / 100BASE-TX / 10BASE-T)
Power	90v~240v Variable
Dimensions	380x270x130 (mm)
Weight	8.5lbs.
Specifications are subject to change without notice
